Good to Great Schools Policy

Appendix 7

1. Protocols for Termly One Day Reviews

As part of the monitoring and evaluation processes for schools categorised receiving intensive support, Hackney Education will carry out termly One Day Reviews. Schools categorised as receiving enhanced support may also receive a one day LA review at an agreed point in the year to support the self evaluation process or as a measure of the impact of agreed actions.

The reviews are to ensure the pace and impact of improvement is appropriate i.e. progress and capacity are sustained and secure. The review team will use the evidence from the review to evaluate the effectiveness of school leaders to manage change towards agreed areas for improvement. The Good to Great Schools Policy, item 2.9.5, outlines the monitoring role of the One Day Review process. The review is not intended to be an 'inspection' of the school but a process to evaluate the school's journey of improvement. The review also provides schools with the opportunity to demonstrate the improvements made to teaching and learning, pupil attainment and progress, and leadership to HE.

For schools in the intensive category, most reviews will take place in the second half of each term prior to the end of term Trust Action Group (TAG) meeting. The evidence gained from the review will be used to inform judgements made at the end of term TAG meeting.

1.1 Communication

The review team from Hackney Education will consist of at least two Hackney Education officers and may include an Executive Headteacher from a local school. The school will be contacted a minimum of seven days prior to the review, by the SIP for the review, to confirm the date and timings for the review. An outline of the review will be forwarded to the school, together with an indication of what information the school will need to provide in preparation for the review.

1.2 Documentation to be made available either before the review or on the day of the review if not readily available on the school website will include:-

- Most recent school self-evaluation – SEF
- School Development Plan and CPD plans
- Teaching Profile
- SIP reports
- Monitoring reports
- Governing body reports
- Pupil attainment and pupil progress summaries
- Teaching and Learning Policy
- Marking and Feedback Policy
- Curriculum outlines and policies

1.3 The plan of the day

The review will include a range of activities which will provide evidence for the review team to evaluate the progress the school is making towards agreed priorities. Each review team will decide on the activities to be used based on the needs of the school.

The range of activities will include some or all the following: -

- Discussions with school leaders
- Discussions with members of the governing body
- Scrutiny of school information and documentation requested by the review team
- Learning walks and visits to lessons
- Scrutiny of pupils' workbooks and relevant curriculum documentation
- Discussions with pupils

The review team will not be able to provide feedback to individual teachers or support staff about their performance. The final report will provide an overview of the quality of education and will not report on the performance of individuals. The findings of the review should not be used as part of the school's performance management process for members of the school team.

At the end of the review, using the evidence from the activities carried out during the review, the team will consider the following indicators to make a best fit judgement about how effectively school leaders are driving improvement and managing change. This is not intended to be used as a checklist of outcomes, but as a guide for the team to inform their professional judgement.

Evidence from the review indicates that:

A	<ul style="list-style-type: none"> • The school is securely on track to meet all of the end of year outcomes • Agreed changes are securely embedded. • There are secure improvements in pupil outcomes, including vulnerable groups • School leaders at all levels show strong capacity for continued improvement • There is a culture of ambition for all stakeholders • School self evaluation is accurate and systemic. This is impacting across the school • There are no other concerns about the school's provision
B	<ul style="list-style-type: none"> • The school is securely on track to meet most of the end of year outcomes • Agreed changes are mostly embedded. • There are improvements in pupil outcomes, including vulnerable groups • School leaders show strong capacity for continued improvement • There is a culture of ambition for all stakeholders • School self evaluation is consistently impacting across the school
C	<ul style="list-style-type: none"> • The school is securely on track to meet some of the end of year outcomes • Some agreed changes are embedded. • There are improvements in some pupil outcomes, including vulnerable groups • School leaders show capacity for continued improvement • There is a culture of ambition for stakeholders • There is a consistency in approach in some of the identified areas • School self evaluation is not yet consistently impacting across the school
D	<ul style="list-style-type: none"> • There remains a risk that the school may not meet the end of year outcomes. • Senior leaders, including governors, have begun to introduce the agreed changes • Systems of school self evaluation are starting to impact across the school • There are some improvements in pupil outcomes, however the implementation of changes is not yet consistent across the school. • School leaders show capacity for continued improvement
E	<ul style="list-style-type: none"> • There is a likely risk that the school will not meet the end of year outcomes. • Senior leaders, including governors, are not managing to implement the agreed changes quickly enough. • There is not sufficient evidence to show improvements in key areas. • School self evaluation is not yet robust enough. • New practice and systems are not consistently being implemented.

The review team will give feedback to school leaders about areas of improvement and changes noted by the team during the review and indicate areas for further development. This information will be fed

into the next Team Action Group meeting and will inform judgements about the school's progress at the meeting.

A report of the One Day Review will be forwarded to the Headteacher and Chair of Governors within five working days of the review following a quality assurance process carried out by the Director/Assistant Director for Education.
