Introduction

Hackney Education must ensure the claims made on all primary and secondary applications are checked before ranking and offers take place. Assistance is required with this task from all community primary and secondary schools. These checks are important and help to ensure we are making offers to the right children under the right criteria.

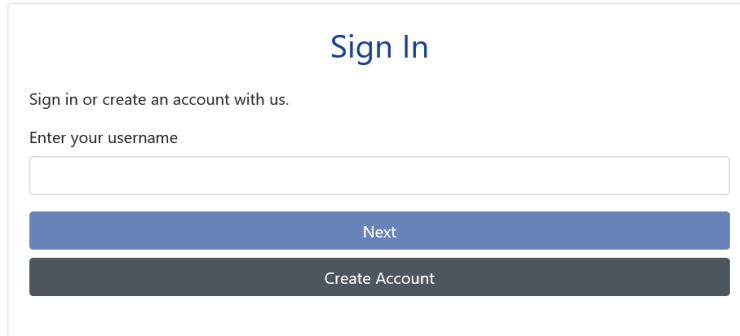

This document explains how community schools can carry out their sibling and staff verification checks within SAM.

At the appropriate time during the admissions process the Admissions and Pupil Benefits Team will contact schools via e-mail to confirm they are able to carry out their sibling and staff verification checks within SAM.

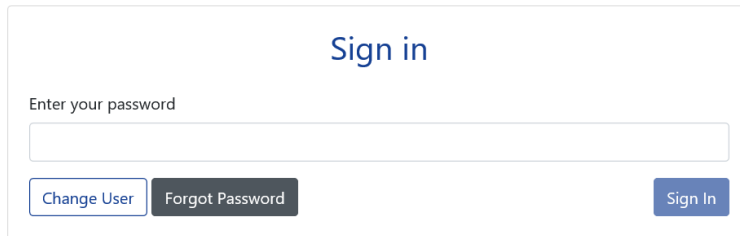

If you have any queries regarding sibling and staff verification, you can contact the Admissions and Pupil Benefits Team on 0208 820 7125 Monday to Friday from 9am to 5pm.

Sibling claims should only be accepted when the following conditions are met

For primary admissions:

Children with a brother or sister on roll at the school in Reception to Year 6 at the time of the proposed admission. In cases where a family has moved address since the last sibling was offered a place and the new address is further away from the school priority will only be given where the new address is within 0.75 miles of the school.*

A brother or sister must live permanently at the same address as the child for whom the application is being made. This includes a half brother or sister, step brother or sister or a foster brother or sister who lives permanently as a family unit at the same address.

** Discretion may be given to families who were forced to move address more than 0.75 miles from the school, e.g. where they were rehoused, or there are other exceptional reasons.*

For secondary admissions:

Children with a brother or sister on roll at the school in Years 7 to 13 at the time of the proposed admission.

A brother or sister must live permanently at the same address as the child for whom the application is being made. This includes a half brother or sister, step brother or sister or a foster brother or sister who lives permanently as a family unit at the same address.

To export sibling details

- ◆ If you have a high number of sibling claims to verify, you can export the list of sibling details to check against your school database before verifying the claims on SAM. To do this, you will need to select 'View Rankings' from the 'Round Summary' screen. If you are a school that uses banding, you will also need to select any band from the drop down menu first:

Round Summary

- ◆ Select the 'Sibling Claim' box in the 'Options' section on the left hand side of the page and then click Search. This will display a list of children with a sibling claim. To extract the list, click on the 'Actions' menu, select 'Export All Fields' and then 'Export to CSV':

Once the file is open, you can save it by clicking on 'File' > 'Save As' and navigating to where you would like to save the list. You are advised to select Excel Workbook from the 'Save type as' drop down list before clicking 'Save':

You can check whether the sibling details in columns AN to BD match those registered for the child on your school database. Once you have checked the list to make sure the sibling is on roll and the address of the applicant and sibling are the same; follow the steps below.
